

## New Vacancy

*For Dortmund office*

### Expect more?

TynTec is a mobile messaging service provider, offering powerful SMS functionality to operators, enterprises, aggregators, ISPs and message resellers. Through partnerships with mobile operators the company has unique, multiple points of access into the deep level (SS7) mobile telecoms network, enabling it to offer a new level of quality in messaging services. TynTec works with a wide range of mobile operators and major global businesses including O2, T-Mobile, Accenture, British Airways and Google. For our Munich office we are looking for an enthusiastic:

## Database Software Engineer

### Main Accountabilities

One of the strengths of TynTec is its unique Enterprise Information System that allows for the integration of (up to now) 7 very different productive systems. This information system is based on a single conceptual database. The responsibilities of the Database Software Engineer include schema design, data maintenance and development, as well as maintenance of internal application software.

Among other things the conceptual data is evaluated to create specific routing information for the mobile network which enables TynTec to deliver its superior quality in the mobile messaging market.

Applications are connected via CORBA and written in Java and C++. As the Database Software Engineer is also responsible for internal consulting for new database tables and views for new products and services of the company, in the early product phases the Software Engineer will also be responsible for entering and maintaining the data for such prototype software.

## The ideal candidate should have the following profile:

- 2-3 years experience in database schema design
- Strong background in SQL database management systems (preferably PostgreSQL)
- 2-3 years experience in Java software development
- Linux or Unix experience
- Basic knowledge of C++
- Good knowledge of English and German
- Exceptional communication skills

## The package

- A professional, international and exciting environment
- Challenging and diverse projects
- Excellent career development opportunities
- Distinctive team spirit
- A competitive salary

Start of Employment: As soon as possible.

If you are interested in working in an environment where ownership, pragmatism, teamwork and open mindedness are amongst our core values, then we welcome you to explore the opportunities at TynTec. Please send your CV and cover letter to [Sabine Delorme \(delorme@tyntec.biz\)](mailto:Sabine.Delorme@tyntec.biz).

Please include: 'Database Software Engineer' in the title of your Email.
